To Whom It May Concern:

Leidos completed its conformance review of the Cisco Systems, Inc.'s Cisco Telepresence v 6.2.1 (the "Product") on September 03, 2013 and September 17, 2013; has found that the Product faithfully integrates the following FIPS 140-2 approved cryptographic module:

1. Cisco FIPS Object Module (FOM) (FIPS 140-2 Cert. #2034)

Specifically, Leidos' review confirmed that:

1. The integrated cryptographic module (mentioned above) is initialized in a manner that is compliant with its individual security policies.
2. All cryptographic algorithms used for TLSv1 used in HTTPS and SIP for session establishment, traffic encryption and traffic authentication are offloaded to Cisco FIPS Object Module (FOM) (FIPS 140-2 Cert. #2034).
3. All cryptographic algorithms used for SSHv2 for session establishment, traffic encryption and traffic authentication are offloaded to Cisco FIPS Object Module (FOM) (FIPS 140-2 Cert. #2034).
4. All cryptographic algorithms used for H.325 Media Stream Security for traffic encryption are offloaded to Cisco FIPS Object Module (FOM) (FIPS 140-2 Cert. #2034).
5. All cryptographic algorithms used for sRTP for session establishment, traffic encryption and traffic authentication are offloaded to Cisco FIPS Object Module (FOM) (FIPS 140-2 Cert. #2034).
6. The Product will not operate if either of the integrated modules (mentioned above) is missing or altered.

Details of Leidos' review, which consisted of source code review and operational testing, are obtainable by special request.

Please note that for this review, Leidos only examined the Product features referenced above and while the Product may contain other features or functionality, Leidos did not examine these during its review and makes no claims or representations regarding them. Furthermore, the Cryptographic Module Validation Program (CMVP) has not independently reviewed Leidos' analysis, testing, or results.

The intention of this letter is to provide independent opinion that the Product correctly integrates and uses validated cryptographic modules within the scope of claims indicated above. Leidos offers no warranties or guarantees with respect to the above described compliance review. This letter does not imply an Leidos certification or product endorsement. Please let us know if you have any questions.

Sincerely,

Daun-Marie Sniegowski
Laboratory Director
