Whom It May Concern:

Acumen Security verified that the following product faithfully embeds a FIPS 140-2 validated cryptographic module,

- Product Version 8.10

The software version is known to operate on the following hardware platform(s):

- Cisco Wireless LAN Access point 1702i.
- Cisco Wireless LAN Access point 2702e, Cisco Wireless LAN Access point 2702i.
- Cisco Wireless LAN Access point 3702e, Cisco Wireless LAN Access point 3702i and Cisco Wireless LAN Access point 3702p.

During the review, Acumen Security confirmed that the following cryptographic module is properly incorporated into the product:

- IOS Common Cryptographic Module (IC2M) Rel5, cert #2388

Acumen Security confirmed that the following features leverage the embedded cryptographic module to provide cryptographic services for **SSH, DTLS and 802.11i**.

- Session establishment supporting each service,
- All underlying cryptographic algorithms supporting each services' key derivation functions,
- Hashing for each service.
- Symmetric encryption for each service.

Details of the verification may be obtained from Cisco Systems, Inc. at the request of interested parties. This letter represents the independent opinions of Acumen Security and does not imply endorsement of the product by the CMVP or any other parties.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ashit Vora', is written over a horizontal line.
