

Cisco Firepower Management Center Lightweight Directory Access Protocol

CVE-2019-16028

Cisco Security Advisory ID : cisco-sa-

[CVE-2019-](#)

20200122-fmc-auth

[16028](#)

Published : 2020-01-22 16:00

Version : 1.0 : Final

CVSS Score : [9.8](#)

Workarounds : No workarounds available

Cisco Bug ID : [CSCvr95287](#)

Summary: A critical vulnerability exists in the Lightweight Directory Access Protocol (LDAP) interface of Cisco Firepower Management Center (FMC) Web Services. An attacker can exploit this vulnerability to perform a denial of service (DoS) attack against the FMC Web Services.

Impact

Cisco Firepower Management Center (FMC) Web Services

Version: 1.0 (2020-01-22)

A critical vulnerability exists in the Lightweight Directory Access Protocol (LDAP) interface of Cisco Firepower Management Center (FMC) Web Services.

The vulnerability is located in the LDAP interface of the FMC Web Services. An attacker can exploit this vulnerability to perform a denial of service (DoS) attack against the FMC Web Services.

The vulnerability is located in the LDAP interface of the FMC Web Services. An attacker can exploit this vulnerability to perform a denial of service (DoS) attack against the FMC Web Services.

The vulnerability is located in the LDAP interface of the FMC Web Services. An attacker can exploit this vulnerability to perform a denial of service (DoS) attack against the FMC Web Services.

The vulnerability is located in the LDAP interface of the FMC Web Services. An attacker can exploit this vulnerability to perform a denial of service (DoS) attack against the FMC Web Services.

For more information, please refer to the following URL: <https://sec.cloudapps.cisco.com/security/center/content/CiscoSecurityAdvisory/cisco-sa-20200122-fmc-auth>
